

BORDERS | FRAGMENTED IDENTITIES

September 03 - October 02, 2020

ITSLIQUID Group, in collaboration with **Venice Events** and **ACIT Venice** Italian-German Cultural Association, is proud to announce **FRAGMENTED IDENTITIES**, second appointment of **BORDERS Art Fair 2020** that will be held in Venice at **THE ROOM Contemporary Art Space** and at **Palazzo Albrizzi-Capello**, from September 03 to October 02, 2020.

The festival focuses on the **concept of “borders”**, between the **soul** and the **body**, the **human being** and the **city**, the **city** and the **ground**. The festival analyzes the idea of **human and urban borders**, how people live them and how they are modified in contemporary society. Every human being lives in a world in which the limits, the borders, shape their attitudes and behaviors, limiting the freedom and creating a sense of alienation. The human being reacts breaking the limits and finding a new way of life. We imagine a world of “liquid cities”, where differences create new **possibilities** instead of being social barriers.

Human identities are both separated and related one to another into a big mosaic that complete the existence and the world culture. All the identities can be considered as **fragmented pieces of human being**, ready to be unique and shareable in a universe with physical limits. In art people are mixed together in a **melting pot of sensation and fluctuating emotions**. The challenge is to see all those fragmented identities, recognize and use them to see things through many different points of view and imagination in order to broke all barriers and boundaries of every day’s life and to create the **relationship between man and space**, including man-built and natural spaces. There is not a unique perspective on our unconscious beings and identities, showing how things are rarely whole or perfect.

During the opening, on the occasion of the Venice Film Festival, the film and theatre director Paolo De Falco will have a talk about his artistic work in Palazzo Albrizzi-Capello.
